

AA YUSHYA PANCHAL

PYTHON DEVELOPER/FULL STACK WEB DEVELOPER

PROFILE

Motivated Python/AI-ML Developer fresher skilled in Python, Django, SQL, and web development. Passionate about building efficient backend systems and scalable web applications. Familiar with Java basics and eager to learn, grow, and contribute to a professional development team.

EXPERIENCE

PYTHON DEVELOPER – ACADEMIC & PERSONAL PROJECTS

- Built a codeless website generator on localhost using LLaMA-2-7B-Chat integrated with Streamlit for natural language-based website creation.
- Developed a local network chat application using Python that enables real-time communication between devices on the same network
- Built a Face Recognition-based Attendance System that automatically marks attendance and triggers an alarm for sign-out when time expires
- Created a Virtual Assistant (Jarvis) using Python capable of handling voice commands, system operations, and basic automation tasks
- Implemented Real-Time Object Detection using computer vision techniques to identify and track objects through a live camera feed
- Worked with Python libraries such as OpenCV, NumPy, Speech Recognition, and related frameworks
- Designed backend logic, handled data storage using SQL, and ensured smooth system performance
- Gained hands-on experience in problem-solving, debugging, and optimizing Python applications
- Gemini said
- Developed EduSync-IDE, a collaborative cloud platform featuring real-time code editing and automated assignment distribution. Streamlined student-teacher workflows and enhanced remote learning engagement through synchronized, scalable web technologies.
